What Do You Think?

Name_____ Date_____

<u>Directions</u>: Read the questions and answer in complete sentences based on the information you learned in class.

Think about what you learned in class today. What are some characteristics of the desert? How do animals and plants survive in the desert? Are deserts found on every continent? Are all deserts hot and dry? Name one animal and one plant you can find in the desert and explain how it has adapted to survive in the desert.
